

CONES TEAM

CONES TEAM

Same space and setup as in previous game. Combine groups, make two equal teams and two home bases at either end of the rectangular space. On command players gather one cone at a time and return it to home base. Because the other team can steal cone from opponent's home base, each team must organize defenders. Defenders must always have their ball. Defenders must control their ball while kicking away the attackers ball. Remember attackers can not pick up a cone without their ball.
