

LINE GAME**By Ed Tremble****LINE GAME**

Start with equal number of players. Coaches call out a number (example "3"). Each team must send out 3 players a side. The remaining players stay on the goal line holding hand trying to prevent goals. Coach calls a number after goals were scored or whenever convenient.

COACHING POINTS

1. Call out different numbers, players learn to interact with different subsets.
2. Give team advantages to certain teams so players must learn to deal with numbers up and down situations (dark 3, light 4).
3. After players understand the game, demand that they switch quickly. It is important that players control how and who comes out. This helps develop their organizational skills and team dynamics.

TRY THESE VARIATIONS

1. Play three touch, each player can only use up to three touches.
2. Double points if scored off a head ball.
3. Double points if scored off a combination (ie. give and go, take over).
4. "SETUP", Only one player from each team is allowed to score.
